Which laptop can you keep useful?

Compare two exact configurations. Fill or print this page. Keep the listing, quotes and return deadline.

CHECK BEFORE PAYING	CANDIDATE A	CANDIDATE B
Exact machine and work Model / generation / installed configuration; must-run apps; ownership end		
Memory and storage Capacity and layout; fixed or replaceable; module type; SSD size / slots; migration		
Battery and mobility Condition / useful runtime; compatible part ID; source / stock; installed quote / date		
Repair and downtime Charging / display repair route; shop / lead time; backup machine; repair coverage		
Software and warranty Current OS / required apps; firmware source; any update deadline; serial coverage		
Full cost and exit Delivered + taxed price; necessary extras vs optional work; cash before resale; return date		
Your decision Does it do your work? Which fixed limit or unresolved cost could change the choice?		

Record facts separately from estimates. Blank answers are questions to resolve, not a reassuring score.

This worksheet does not predict failures or certify a four-year lifespan. Price2Click Editorial.
